

Business Ethics vs Profit-Driven Practices (vsdiff.com)

Aspect	Business Ethics	Profit-Driven Practices
Focus	Long-term sustainable growth and stakeholder welfare	Short-term financial gains and shareholder profit
Decision Making	Values-based approach considering ethics	Data-driven approach focused on financial metrics
Stakeholder Consideration	Inclusive of employees, customers, and communities	Mainly prioritizes shareholders and investors
Transparency	Promotes openness and honesty	May involve selective disclosure for maintaining image
Impact on Society	Aims for social responsibility and positive change	Often disregards social impact for profit maximization
Reputation	Strengthens corporate reputation and trust	Can lead to reputation risks if ethics are ignored
