

## HTML vs Markdown (vsdiff.com)

| Feature                  | HTML                             | Markdown                                       |
|--------------------------|----------------------------------|--|
| <b>Syntax Complexity</b> | More complex with detailed tags  | Simple and easy-to-read syntax                 |
| <b>Learning Curve</b>    | Steeper learning curve           | Quick to learn for beginners                   |
| <b>Readability</b>       | Less readable as code            | Highly readable                                |
| <b>Flexibility</b>       | More flexible in styling         | Limited styling options                        |
| <b>Use Cases</b>         | Web development, complex layouts | Documentation, blogging, and simple formatting |
