

Innovation vs Tradition (vsdiff.com)

Aspect	Innovation	Tradition
Definition	Introduction of new ideas, methods, or devices.	Practices and customs passed down through generations.
Flexibility	Highly adaptable to changes and new demands.	Often resistant to change, focusing on preservation.
Risk Factor	Involves uncertainty; potential for failure.	Lower risk, as practices are tried and tested.
Impact on Society	Can lead to significant societal shifts and improvements.	Provides stability and connection to cultural identity.
Examples	Technology startups, renewable energy solutions.	Festivals, traditional medicine, and cultural rituals.
Emphasis	Focus on future possibilities and advancements.	Focus on historical significance and continuity.
