

NVIDIA vs AMD Graphics Cards (vsdiff.com)

Feature	NVIDIA	AMD
Performance	Excellent ray tracing, superior AI-based performance	Competitive in gaming, strong at 1080p/1440p
Price-to-Performance Ratio	Generally higher, long-term value	More affordable, great value for gamers
Software & Drivers	GeForce Experience with reliable updates	Radeon Software offers robust features but inconsistent support
Power Consumption	Improved efficiency but can draw high power	Better thermal management and power efficiency
