Node.js vs Django (vsdiff.com)

Feature	Node.js	Django
Language	JavaScript	Python
Architecture	Event-Driven, Non-Blocking I/O	MVC (Model-View-Controller)
Performance	High, especially for I/O-bound tasks	Good for CPU-bound tasks
Scalability	Highly scalable due to non-blocking architecture	Decent, but can be challenging for very high loads
Development Speed	Fast with numerous packages	Rapid due to built-in features and admin interface
Community Support	Large and active community	Strong community with extensive documentation
