React vs Angular (vsdiff.com)

Feature	React	Angular
Architecture	*Component-based*	*Model-View-Controller (MVC)*
Data Binding	One-way data binding	Two-way data binding
Learning Curve	*Moderate*	*Steep*
Performance	Fast with Virtual DOM	Good but can be slower due to two-way binding
Community Support	*Vibrant and active*	*Strong but more enterprise-focused*
DOM Manipulation	*Virtual DOM*	*Real DOM*
