

Career Change vs Career Growth (vsdiff.com)

Feature	Career Change	Career Growth
Definition	A transition to a different job or field.	Advancement within the same profession.
Motivation	Desire for new challenges or dissatisfaction with current job.	Aspiration for higher positions or responsibilities.
Risk Level	Higher, due to uncertainties in a new field.	Lower, as you build on existing skills.
Timeframe	Often requires more time for training or education.	Typically faster, focusing on existing expertise.
Financial Impact	Initial income may decrease while transitioning.	Potential for increased salary and benefits.
Networking Opportunities	Building a new network in a different industry.	Expanding within established professional networks.
