

Green Screen vs Natural Background (vsdiff.com)

Feature	Green Screen	Natural Background
Flexibility	High - can change background easily	Low - limited to existing scenery
Cost	Moderate - requires equipment and software	Low - minimal equipment needed
Setup Time	Longer - needs lighting and setup	Shorter - natural light often sufficient
Visual Quality	High - can create stunning visuals	Varied - depends on the location and lighting
Post-Production	Essential - requires editing software	Minimal - often no editing required
