

Wireless Charging vs Wired Charging (vsdiff.com)

Feature	Wireless Charging	Wired Charging
Convenience	Highly convenient; no need to plug in cables	Requires plugging and unplugging
Speed	Generally slower; varies by pad	Fast charging available; many high-wattage options
Portability	More portable with fewer cable issues	Less portable; often involves bulky chargers
Heat Generation	More heat generated during charging	Lower heat output
Compatibility	Standardized methods (Qi, PMA)	Needs specific cables/adapters
